RESOURCES: Videos

The MARE staff has previewed these videos and found they complement the rocky seashore curriculum. The availability and pricing in this listing is current as of August 1994. Please let us know of new videos you discover so we can add them to our list and share them with other teachers and students. Detailed descriptions of these videos—and how you can obtain them—follows.

Barnacles Tell No Lies

Lobstahs

Prairie Starfish Productions
573 Lakeshore West
Lake Quivira, KS 66106
(800) 395-9397
\$19.95
3.5 minutes; 5 minutes

“Barnacles Tell No Lies”—Barnacles reveal they've got rhythm and they've got soul in a music video. “Lobstahs”—Everything you never particularly needed to know about how to eat a lobster. This video is intended for college students—not appropriate for the elementary grades.

Dancing With the Earth

Banana Slug String Band

P.O. Box 2262

Santa Cruz, CA 95063

(408) 476-5776

\$16

40 minutes

Mother Earth has a new ally on video with this concert-cum-music-videotape from the “Slugs.” Like their natural counterparts, the band is surrounded by redwoods on stage. By the tape's end, they become trees as they exhort their young audiences to sing and dance to “I'm a Tree.” Other songs extol marshlands as ducks go “Butts Up” to eat, tidepools in the colorful on-location “Tidepool Boogie,” and the food chain in “Dirt Made My Lunch.”

Don't Blink Now

New England Aquarium Teacher Resource Center

Central Wharf

Boston, MA 02110-3399

(617) 973-6590

\$22

3:30 minutes

Presents real time and slow motion images of some rarely seen events under the ocean.

Fish, Shellfish, and Other Underwater Life

(in English or Spanish)

Tell Me Why

730 Washington Street; Marina Del Rey, CA 90292

(213) 821-3329

\$19.95

94 minutes

This award-winning unique video encyclopedia is based on the book series by Arkady Leokum and answers questions asked by children in an informative, easy to understand manner aided by incredible visuals.

Life on Earth

Warner Home Video

30952 San Clemente Street

Building D, Suite #4

Hayward, CA 94544

(800) 775-4300

\$29.95

Two parts, each is 232 minutes

“Life on Earth,” the result of a three-year, 1.3-million-mile odyssey to all seven continents, tells how a few life forms came to be as they are, not as isolated oddities but as elements in a long and continuous story that began billions of years ago.

Marine Careers

University of Delaware Sea Grant College Program

University of Delaware

Marine Communications Office

Newark, DE 19716

(302) 831-8083

\$15

18 minutes

This video describes many opportunities for working in, on, and around the ocean. Marine science, marine environmental management, commercial fishing, aquaculture and seafood, uniformed service, marine recreation, tourism, marine technology, and marine transportation are highlighted as marine careers for students to consider.

\$19.95 for shorter one, \$24.95 for longer one

30 minutes, 69 minutes

Includes spectacular segments on the rocky shore, the kelp forest, marine mammals, squid, plankton, the Monterey submarine canyon, and behind the scenes at the aquarium.

New England Aquarium Videos (*various titles*)

New England Aquarium Teacher Resource Center

Attn: Joel Rubin

Central Wharf

Boston, MA 02110-3399

(617) 973-6590

various prices

various times

The Teacher Resource Center maintains a large collection of circulating videos, slideshows, software, filmstrips, posters, and small kits available to teachers nationwide. Included are about 10 video titles on a wide variety of topics. Call or write for a list of titles.

Oceans Alive! (in English or Spanish)

Environmental Media & Marine Grafics

P.O. Box 1016

Chapel Hill, NC 27514

(800) 368-3382

\$49.95 each (**four parts, only parts 1 and 2 are available in Spanish**)

50 minutes

Oceans Alive! illustrates the relationships among marine life and supports the teaching of life science. Filmed entirely in the wild in many locations, this series encourages students to ask questions and to share experiences. It is recommended for ages 10 to adult.

Part 1: Introduction, Predation, Cnidaria, Living Rock, The Coral Jungle, Life Together, The Clownfish and the Anemone, Protection by Deception, Camouflage, Armed and Dangerous

Part 2: Porifera, Crustacea, Echinoderms, What is a Fish?, Fish Senses, Sharks and Rays, Respiration, Undersea Eyes, The Deep Blue Sea, Reproduction

Part 3: Introduction, Marine Mammals, The Dolphin, Sea Birds, The Salt Marsh, The Food Web, Plankton, Mollusks, Sand Country, Homes

Part 4: Islands Under the Sea, Slugs, Tunicates, Amazing Rays, The Cleaning Station, The Deep, Colors and Patterns, Tides, Water Water Everywhere, People and the Sea.

Ozone: the Hole Story

Modern Talking Picture Service

Sales Department

5000 Park St. North

St. Petersburg, FL 33709

(800) 243-6877

\$24.95 plus \$5 shipping and handling

60 minutes

This comprehensive description of the ozone layer and its importance to life on earth also delves into the history of products that contribute to its destruction. Leading scientists and politicians involved in understanding and decreasing the environmental hazards of ozone destruction are introduced.

Scientists and the Alaska Oil Spill

Exxon Company, USA

Public Affairs Department

PO Box 2180

Houston, TX 77252

(713) 656-8758

Free

22 minutes

The 1989 oil spill in Alaska's Prince William Sound led to an unprecedented response from the scientific community. This video presents Exxon's viewpoints about the science behind the cleanup efforts.

Sea World Videos (*various titles*)

Sea World

Education Department

1720 South Shores Road

San Diego, CA 92109-7995

(619) 226-3834

\$15 for each video

40 minutes, except "Meet the Challenge: Marine Conservation" (28 minutes)

Sea World's education department has a wide array of educational materials available to teachers including videos, teacher's guides, posters, information booklets, and even a live TV program. Video topics include marine conservation issues, baby animals, sharks, polar animals, dolphin research, and coral reefs. Call or write for details.

Seashores

Hollywood Select Video Inc.

10010 Canoga Ave. B5

Chatsworth, CA 91311

(818) 773-0299

\$14.99

25 minutes

This video explores the inhabitants of the Atlantic and Pacific coasts. The Atlantic seacoast has a varied and exciting panorama from the Bay of Fundy with its gigantic tides and the rockbound shores to the marshes of the Chesapeake and the islands of Florida's Keys, we . The Pacific shore is diverse with its sandy beaches and its spectacular shoreline flowers plus its tidepools and fascinating creatures that inhabit them. We get a detailed view of both in this colorful film.

Trashing the Oceans

The Marine Refuse Disposal Project

NOAA Marine Debris Information Office

Saltwater Productions

NOAA Marine Debris Information Office

c/o Center for Marine Conservation;

580 Market

Suite 550

San Francisco, CA 94104

(415) 391-6204

\$10; can be loaned out for free

7:21 minutes; 8 minutes

"Trashing the Oceans" describes the threats of marine debris using graphic video footage. The second video shows how the port of Newport Refuse Project is stemming the tide of marine debris from Newport Harbor in Oregon.

Trials of Life

Time Life Video
777 Duke Street
Alexandria, VA 22314
(800) 621-7026
\$39.95
60 minutes

Anthropologist Sir David Attenborough has captured the life-and-death struggle in the “realest” world of all. All the tools of the hunter and the hunted are on display: camouflage, mimicry, booby traps, even chemical warfare. Includes footage of orcas attacking sea lions.

When the Spill Hit Homer

The Video Project
5332 College Avenue,
Suite 101
Oakland, CA 94618
(800) 4-PLANET
\$85
26:30 minutes

This firsthand account from the perspectives of the residents of Prince William Sound and nearby Alaskan Native villages, which rely on the sea for their subsistence, portrays the devastating human impact of the Exxon Valdez oil spill.

Wild California

Sea Studios
810 Cannery Row
Monterey, CA 93940
(408) 649-5152
\$19.95
40 minutes

“Wild California” may awake memories of solitude or exhilaration as it explores the ecosystems of different parts of California such as the Pacific Coast, Salt Marsh, Oak Woodlands, Yosemite, and Low Desert.

World Alive

Sea Studios
810 Cannery Row
Monterey, CA 93940
(408) 649-5152
\$29.95; \$39.95 (*includes Educational Guide*)
25 minutes

The wonder of life, the splendor of birth and growth, the grace of motion, the drama of survival, the beauty of courtship and renewal, the activities and interactions of the myriad creatures of the planet, are profiled.

Worlds Below

Sea Studios

810 Cannery Row

Monterey, CA 93940

(408) 649-5152

\$39.95 (*includes Education Packet*)

60 minutes

A wondrous video journey into the undersea worlds of California's Monterey Bay. Six lyrical compositions of images and music transport you from wave-swept rocks, across the vast submerged plains, and into the mysterious dark depths of the Monterey Canyon.
