

**wading birds -
great blue heron**

EATS:

shrimp,
crabs,
fish,
frogs,
lizards,
salamanders,
snakes,
mice,
insects

EATEN BY:

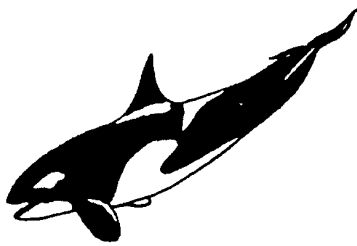

**western sandpiper,
sanderling, yellowlegs**

EATS:

marine worms -
(lugworm),
clams,
crabs,
shrimp,
insects,
fish,
amphipods,
sea snails

EATEN BY:

hawks,
fish -
peregrine falcon,
bald eagle

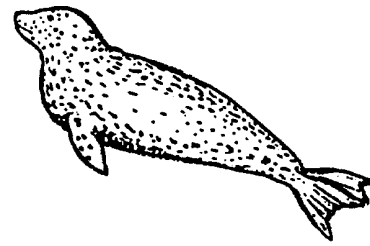

orca

EATS:

fish -
(salmon, herring),
seals,
octopus

EATEN BY:

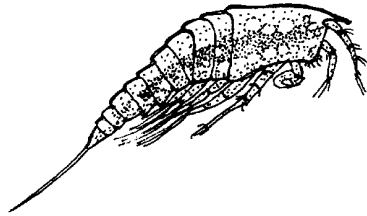

harbor seal

EATS:

fish -
(salmon, herring,
C-O sole,
shiner perch),
molluscs,
crustaceans,
octopus

EATEN BY:

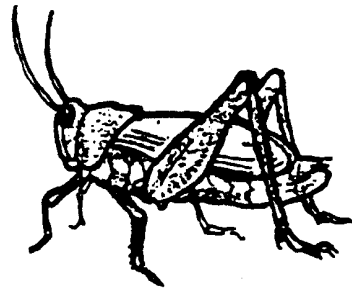

marine worms,
sea snails,
fish,
clams,
waterfowl,
filter feeder,
sea urchins,
limpets

**permanent zooplankton -
small crustaceans
(amphipods, copepods)**

EATS:
phytoplankton,
detritus

EATEN BY:
temporary
zooplankton,
barnacles,
clams,
crab larvae

**plant-eating insects -
grasshoppers**

EATS:
grasses

EATEN BY:
flying birds,
shorebirds,
wading birds -
(great blue heron)

death and decay

EATS:

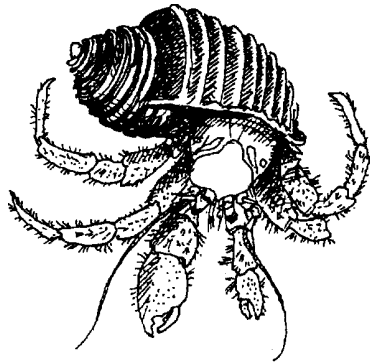

EATEN BY:
hermit crabs,
shore crabs,
plant-eating insects,
mice

octopus

EATS:
crab,
sea snails,
scallops,
hermit crab,
oysters,
clams,
small fish

EATEN BY:
orca,
harbor seal

hermit crab

EATS:
detritus

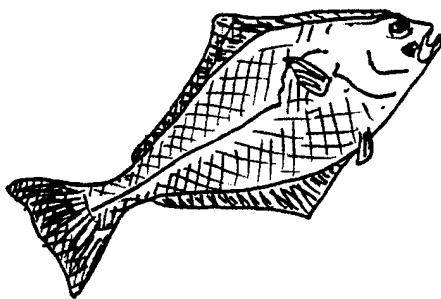

EATEN BY:
small fish,
sunflower star

river otter

EATS:
fish,
crabs,
small crustaceans

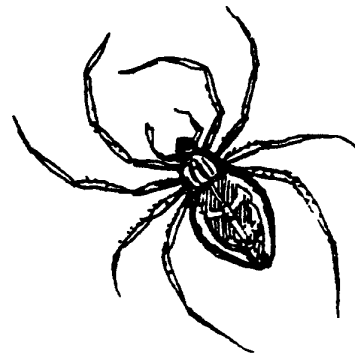

EATEN BY:

**fish -
halibut**

EATS:
crabs,
clams,
fish

EATEN BY:
sea lions,
seals

spiders

EATS:
plant-eating
insects

EATEN BY:
flying birds,
mice,
wading birds -
(great blue heron)

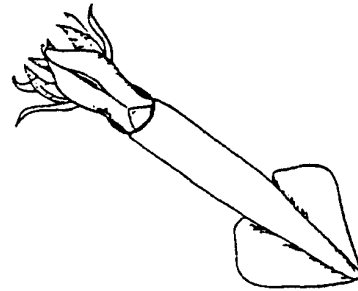

acorn barnacles

EATS:

permanent and temporary zooplankton, phytoplankton

EATEN BY:

sea snails, nudibranchs, sea stars, fish, crabs

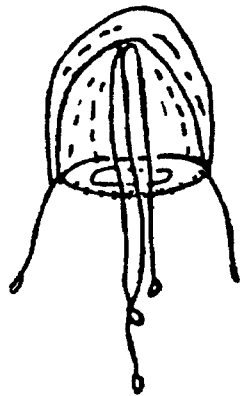

squid

EATS:

small fish, shrimp

EATEN BY:

salmon, other fish, harbor seals

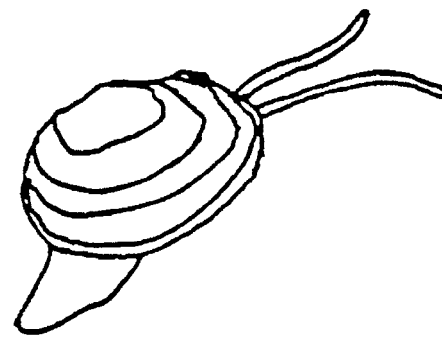

permanent zooplankton - jellyfish

EATS:

permanent and temporary zooplankton, small crustaceans, small fish

EATEN BY:

amphipods, temporary zooplankton, crabs

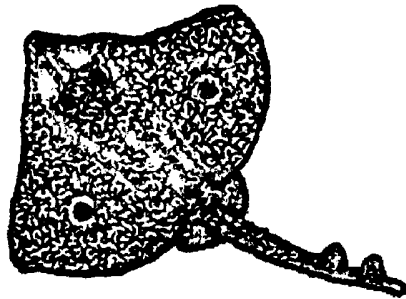

molluscs - *Macoma* clam

EATS:

detritus, algae

EATEN BY:

shorebirds, fish, swimming and diving birds, sunflower star, crabs

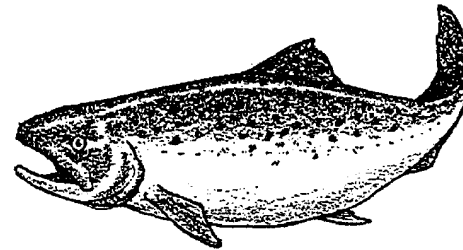

big skate

EATS:

bottom-dwelling crustaceans and molluscs

EATEN BY:

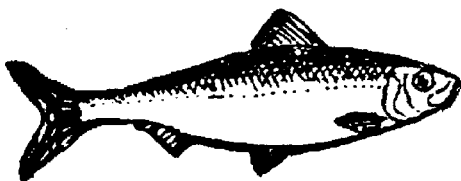

salmon

EATS:

permaent zooplankton - (copepods), herring, amphipods, temporary zooplankton - (herring larvae, amphipods, barnacle larvae, crab larvae)

EATEN BY:

diving birds, harbor seals, dolphins, wading birds - (great blue heron), sea lion, orcas

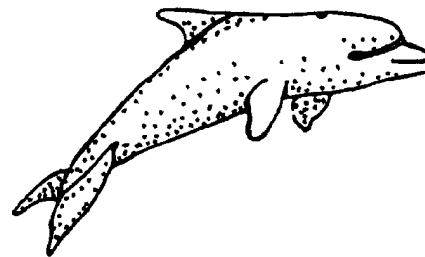

small fish - herring

EATS:

temporary zooplankton - (larvae), permanent zooplankton - (copepods), marine worms, small crustaceans, small fish - (herring)

EATEN BY:

salmon, diving birds, wading birds, sea lions, orcas, dolphins, river otters

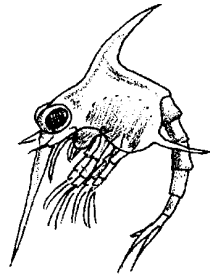

dolphin

EATS:

fish - (herring), squid

EATEN BY:

orcas (in some parts of the world)

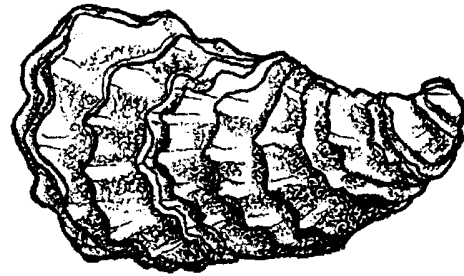

temporary zooplankton

EATS:

phytoplankton,
permanent
zooplankton

EATEN BY:

shrimp,
temporary
zooplankton,
small crustaceans,
hooded
nudibranchs,
barnacles,
sea anemones,
fish -
(shiner perch, young
salmon, herring)

**mollusc -
oyster**

EATS:

detritus,
phytoplankton,
zooplankton

EATEN BY:

oyster drill,
crabs,
shorebirds,
swimming and
diving birds,
sunflower star

**detritus -
decomposing plants
and animals**

EATS:

EATEN BY:

hermit crabs,
small crustaceans,
permanent
zooplankton,
marine worms,
mussels,
oysters,
clams,
shrimp

death and decay

EATS:

EATEN BY:

insects,
hermit crabs,
shore crabs,
mice
