

Diane Gusset has authored and illustrated books about jump roping, geology, writing poetry from nature, natural history, kids' activities and not so plain stories. She also is the creator of many hands-on science center and museum exhibits. In her spare time you might find her "drying out east of the mountains" with her family, camping, painting, or looking for fossils.

Other curricular materials illustrated by Diane include the *Puget Soundbook* and the *Puget Sound Project* curricular series:

*Discovering Puget Sound* - Grades 4-6,

*A Salmon in the Sound* - Grades 7-8, and

*The Changing Sound* - Grades 9-12,

all produced with support from the Puget Sound Water Quality Authority.
